CSI Wireless Announces New Board Appointments

Calgary, Alberta – May 30, 2006 - (TSX:CSY): CSI Wireless Inc., a designer and manufacturer of advanced GPS products, today announced the appointment of Mr. John M. Tye III and Mr. Barry Batcheller to its Board of Directors. Both individuals bring extensive experience within the software and electronics industry designed for agricultural applications. Their appointments complement CSI's recent strategy to focus exclusively on its GPS precision guidance businesses. CSI's wholly owned subsidiary, Hemisphere GPS, is a global leader in precision GPS guidance products for agricultural markets.

Mr. Tye is the Chairman of Bigham Brothers Inc, a specialty equipment manufacturer in Lubbock, Texas and a notable leader in agricultural equipment and technologies. Prior to Bigham, as President and CEO of AgEquipment Group, he manufactured several innovative and successful lines including one of the first commercially successful no-till seeders for precision agriculture applications. He was also a partner in InterAg Technologies, a developer of agricultural software and electronics, which was recently sold to one of its partners, Deere & Company. He has extensive industry knowledge being the only individual to have served as Board Chairman of both of the major farm equipment associations - the Equipment Manufacturers Institute (major manufacturers) and the Farm Equipment Manufacturers Association (specialized manufacturers). In addition, Mr. Tye has served with several other organizations such as the Conservation Technology Information Center and the Southern Farm Equipment Manufacturers Association.

Mr. Batcheller is the founder, President and CEO of Appareo Systems, a designer of augmented reality systems combining 3D graphics software with consumer-oriented geospatial sensing devices. Prior to this, Mr. Batcheller was the founder, President and CEO of Phoenix International Corp. which designed and supplied electronic instrumentation, control systems, sensors, and other devices to a variety of original equipment manufacturers (OEM's). Deere & Company purchased Phoenix in 1999 and Mr. Batcheller continued as the company's President until 2002. Mr. Batcheller joined John Deere in 2002 and was their Director of Technology Growth until 2005. Mr. Batcheller holds 17 patents on control and instrumentation products and has authored numerous papers on the use of electronics in agriculture. Mr. Batcheller was honored as the North Dakota Business Innovator of the Year in 1994, the Fargo Chamber of Commerce Small Business Person of the year in 1995 and was recently named the 2006 North Dakota Entrepreneur of the Year.

"We are pleased to have these experienced individuals joining CSI's board," stated Michael Lang, CSI's Chairman and Interim CEO. "These appointments coincide with CSI's recent move out of the wireless business and the associated management changes, to focus on the strengths of our GPS technologies, products and markets. We believe that we will see a continued technology adoption trend within the global agriculture markets. The related experience these two directors bring to CSI will be valuable in this regard. The ability to attract experienced industry leaders such as Barry and John is also testament to CSI's reputation within these markets."
